

The K-love station in our area provides a valuable service to us and to many other people as it gives us a choice as to what kind of music our families can listen to. Frankly, with out K-love our choices would be very sad indeed. I know personally that the songs that are played on k-love are very uplifting, I know they have changed a lot of bad days into good days for me with the positive message that they send out daily. Please, for the sake of the community, let K-love stay on the airwaves!
